About the Camp:

The Minnesota Elks Youth Camp has been in operation since 1954. Minnesota Elks members from 24 different Minnesota communities sponsor about 700 campers each year during June, July and August. The 300 acre camp is located on the south end of beautiful Pelican Lake in Nisswa. Providing a truly unforgettable camp experience for underprivileged youth is the ultimate goal of this recreational camp. Citizenship and character education are other focuses of the camper's week. Staff members can make a real difference in a camper's life by participating in this experience. Good mentors for campers are necessary to allow for this goal to be achieved.

Minnesota Elks Youth Camp is an equal opportunity employer.
